ESG Due Diligence: Considerations for Funds and Prospective Investments

As Limited Partner appetite grows to invest in PE funds that are prioritizing their Environmental, Social and Governance (ESG) investments, how are SBICs and traditional private equity funds formalizing their policies, monitoring, and reporting systems? Are outsourced services the answer for smaller funds? What are the financial impacts of not adopting formal ESG policies? Is more weight put towards Governance as opposed to Environmental or Social? Is there a “best way” to balance these? As new leadership at the SEC considers actions for both regulated and unregulated investors, what should fund managers prepare for in terms of understanding how to measure ESG impacts with each investment?

Tyson Smith, Tecum Capital, Session Moderator

Today’s Cyber Threat Landscape for Private Equity Funds

Since COVID-19, the FBI reported a 300% increase in cybercrimes and experts agree that data breaches exposed well over 36 billion records in the first half of 2020 alone. Verizon’s 2020 Data Breach Investigations Report noted that 86% of all breaches are financially motivated and that 43% of cyberattacks were on small businesses. This vital session will provide an overview of cybersecurity risk assessments, along with security policies for intrusion prevention, detection, and response. Our speakers will share their decades of experience to cover the issues facing today’s fund managers including wire fraud, ransomware extortion, and data extortion.

Keynote: So, How Are We Doing? An Update on the National Economy

Most economists agree that the 2020 pandemic-driven recession will be relatively short-lived, mostly in terms of months and not years. So now that 2021 sees new economic, monetary, and trade policies by the Biden Administration, what is the outlook for the national economy? Our keynote speaker is a regular guest on CNBC, Bloomberg, and Fox Business News, and his articles on the economy and public policy appear frequently in national and regional publications. Don’t miss this timely update on economic trends and policies.

Jeff Korzenik, Chief Investment Strategist, Fifth Third Bank

Deal Summit General Session

- 9:00 – 10:00 a.m. **Timely Topic Coming – Stay Tuned**
Speakers to be announced.
- 10:00 – 10:45 a.m. **Adventures in New Tax Law**
It is anticipated that legislation to increase taxes will be passed and signed into law this year. Legislation has already been introduced that would tax carried interest as ordinary income and impact the 1202 treatment of qualified small business income. This is aligned with President Biden's proposal earlier this year to tax long-term capital gains at ordinary income rates, increase personal income rates for those making over \$400,000, and the most recent infrastructure proposal funded with an increase in corporate tax rates from 21% to 28%. This session will provide core information about these critical issues facing PE fund managers ... and much more.
