Summary of experience

Bill serves clients in both the Philadelphia region and nationally in RSM's Technical Accounting Consulting practice based in Blue Bell, PA. Bill utilizes over fifteen years of progressive experience and provides a wide array of experiences in helping clients manage their complex accounting and reporting responsibilities, provide analysis and conclusions for accounting transactions, assist with accounting policy development, and assist in the evaluation and implementation of emerging accounting guidance and related service solutions across various industries.

Prior to joining RSM, Bill spent several years in a Big Four firm's audit practice where he specialized in financial services, along with over ten years in various senior level accounting and finance roles at both public and privately held companies.

Several past experiences include:

- Head of FP&A efforts for Large Asset Management firm (Americas Region), prior to and during COVID 19 impact
- Launched and led the Emerging Standard Group for a Technical Accounting Advisory firm serving mid-sized and large public and private companies
- Co-led development and operations for financial and regulatory reporting practice of large fund administrator, including implementation of complex new accounting, reporting and compliance matters for hedge fund and private equity funds
- Led Technical Accounting Advisory team for large fund administrator
- Authored and presented various thought leadership efforts related to complex technical accounting topics
